# BALCONISSIMA – A green oasis created with ease

The new LECHUZA balcony box transforms a small balcony into a lush, green oasis in just the blink of an eye. BALCONISSIMA offers space for up to three grow pots with a maximum diameter of 12 centimeters (4.7 inches) – ready for use in next to no time and without the hassle of repotting!

After purchasing your flowers or herbs, simply insert the wick irrigation system into the grow pot, place the pot in the box, then water and that's it. Your balcony is already showing off its greener side. No more time wasted on repotting. No more dirty hands or balcony. From decorative blooms to fragrant herbs – there is simply no limitation when it comes to choosing plants for your balcony garden.

Thanks to the well-proven LECHUZA sub-irrigation system with a 1 litre (0.3 gal) reservoir, flowers and herbs stay freshly supplied with water for a long time. The drain plug can be removed when plants are placed outdoors, allowing excess rainwater to drain away, thus preventing any water logging. The set comes with a bracket to attach the box easily and securely to the balcony rail in no time at all.

The woven satin structure of BALCONISSIMA looks attractive inside your home too, whether set on your window sill or in the kitchen. With BALCONISSIMA even the smallest of spaces can be used efficiently. Coupled with the familiar CUBE 14 and CUBE 16, it's both quick and easy to make your own, small herb garden with a slick, modern look. That way you can have always a fresh supply of mint, parsley and oregano.

BALCONISSIMA Color is available from mid-January 2018 as an All-in-One set. This includes a planter, planter liner, water level indicator, bracket for the balcony rail and three wick-irrigation sticks. In white, slate and lime green it matches the colors of the CUBE 14 and CUBE 16 herb cubes perfectly.

BALCONISSIMA Color (W x D x H): 40 x 14 x 14 cm (16 x 6 x 5 inches); 1l (0.3 gal) water reservoir
