

# CILINDRO – Smart and stylish

The new column planters CILINDRO with their subtle pin-striped look are a smart and stylish way to showcase plants. Their minimalistic Design makes them a perfect accessory for an elegant ambience. From a bloomy orchid on a sideboard in a CILINDRO 23, to a decorative large green plant in a CILINDRO 32 – both sizes offer countless possibilities matching individual styles and tastes.

A real highlight is the elegant new color sunset orange. The classic colors white and slate compliment lush greens and make plants look modern and timeless. Fine, narrow lines give the planters a unique structure and emphasize their subtle appearance. The stylish column displays plants at eye level aesthetically.

For an ideal plant growth, CILINDRO comes with the well-proven LECHUZA sub-irrigation system. Plants have access to just the right amount of water from the water reservoir of either 1.7 or 4 liters (0.4 or 1 gal). Thanks to the practical overflow system, plants are completely safe from water logging outdoors.

The puristic column makes for a homelike atmosphere, whilst being break-proof, light and ready-to-use.

CILINDRO is available from mid-January 2018 in the colors white, slate and sunset orange as an All-in-One set including planter, planter liner, water level indicator and plant substrate LECHUZA-PON.
