## YULA – Show your own #InteriorStyle!

A green home is on-trend: plants bring nature into your home and add fashionable decorative accents. Whether it's a tabletop succulent or a flowering campanula for the shelf – YULA planters are a stylish and simple way to bring plants into your rooms. The simple, rounded shape and modern color scheme create lots of different design possibilities, enhancing your individual furnishing style. In combination with natural materials, pastel colors and clean lines, the plant bag, planter and watering can add a homelike and modern ambiance.

The YULA planters are also a fantastic 'thank you' for an invitation or an unusual gift for friends. After purchasing the flowers or herbs simply insert the tip of the wick into the cultivation pot from the underside, place this in the planter or plant bag, water, and give to a special person to make their day. Thanks to the integrated wick irrigation system with water reservoir, the plants benefit from a reliable water supply that is customized to their requirements. The practical water level indicator signals when it is time to water again. This makes caring for your plants very straightforward, hassle-free and no green fingers necessary.

Whether they are used to hold herbs, spring flowers or favorite houseplants, the YULA planters create a homelike and modern ambiance. The two planters will be available from mid-January 2018 in the colors of grey and pistachio green as an All-in-One set comprising planter, water level indicator and wick.

YULA planter

(W x D x H): 17 x 17 x 15 cm (7 x 7 x 6 inches); 0,5l (0.1 gal) water reservoir

YULA plant bag
