

ALWAYS THE RIGHT CHOICE

Whether you want to grow fresh herbs and delicious fruits for yourself or would rather swim in a sea of flowers – BALCONERA is always the right choice!

It can be planted quickly and easily thanks to the separate liners, the large water reservoir reliably cares for your plants and the matching BALCONERA brackets* can be used to hang BALCONERA on your balcony railing securely and virtually invisibly.

FOR MAGNIFICENT BLOSSOMS ON YOUR BALCONY!

INTERCHANGEABLE PLANTER LINER

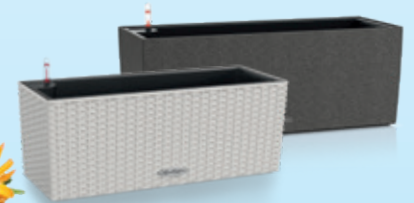

The removable planter liners with recessed handles can be planted on the ground or on a table and then simply placed into the previously attached balcony planters.

This lets you change your balcony planter design quickly and effortlessly any time.

VARIOUS FINISHES

Whether with an appealing **satin finish**, a **strikingly real wicker look** or a **natural stone look** – BALCONERA is always a real eye-catcher. Available in 19.7 in / 31.1 in sizes, there's a model for every balcony.

WATER RESERVOIR

The integrated self watering system features a water reservoir with a capacity of up to 5 liters, ensuring BALCONERA reliably cares for your plants – **even on hot summer days.**

BALCONERA BRACKETS

The BALCONERA brackets allow you to effortlessly attach the BALCONERA planter to all common balcony railings and even to the wall – in just a few easy steps. The simple and flexible brackets ensure sturdy support and can be expanded with an extension* for larger spaces between balusters.

* sold separately

DRAIN PLUG

The practical drain plug allows excess water to drain easily via the integrated overflow function, so plants remain protected from waterlogging even **during heavy rainfall.**

MADE IN GERMANY

LECHUZA balcony planters are manufactured from high-quality plastic at the environmentally-certified production site in **Dietenhofen, Germany**. They are designed especially for use outdoors and are **100% weatherproof**. Made from durable plastic, these planters can stand up to frost and UV rays – without cracking or fading. And they are light and easy to clean.
