INSPIRATIONS 2019

Welcome...

Lechuza  
inspires

...to a stress-free  
Life

Finally time for me, my family, friends, and everything that makes me happy! A year can be a surprisingly short amount of time, especially when you think of everything you want to do from spring to winter, but it doesn't have to be this way! LECHUZA helps my plants thrive indoors and out, without any extra effort. It's time for the watering can to take a break and for me to relax on the couch, travel, or go anywhere I want.

Finally time for all the wonderful things in life thanks to LECHUZA!

MONSTERA & CO.

# Plant trends

Long stems, large leaves, lush green. "Jungle plants" like monstera or calathea, are the latest trend in modern interior design.

They add an extra dash of nature to any home.

Right now one of the hottest trends includes bold green monstera plants, with characteristic holes in the leaf blades, bright red-veined maranta, and giant-leaved calathea plants.

As beautiful as these plants may be, ensuring they have just the right amount of water can be challenging. A rule of thumb is to keep the plants moist, never wet, but never let them dry out.

Complicated? Not with the intelligent irrigation system from LECHUZA!

**Bold green!** Sometimes less is more. Now, instead of flashy, colorful flowers, the invigorating freshness of lush green leaves is the latest trend.

*Lechuza*®

THE ORIGINAL  

UNIQUE AND EFFICIENT

*The irrigation system*

LECHUZA means caring for your plants as nature intended! Plant care has never been so easy. Once placed in our planters, your green companions can take care of themselves perfectly. This is because the integrated water reservoir supplies plants with the right amount of water for optimal growth. The water level indicator takes the guesswork out of watering. Transform your apartment, balcony, and patio into magnificent natural oases, even without expert knowledge, thanks to the original LECHUZA irrigation system.

**WATER LEVEL INDICATOR**

Takes the guesswork out of watering, telling you exactly when to refill the reservoir

**WATER SUPPLY SHAFT**

Makes adding water and fertilizer easy

**LECHUZA-PON PLANT SUBSTRATE**

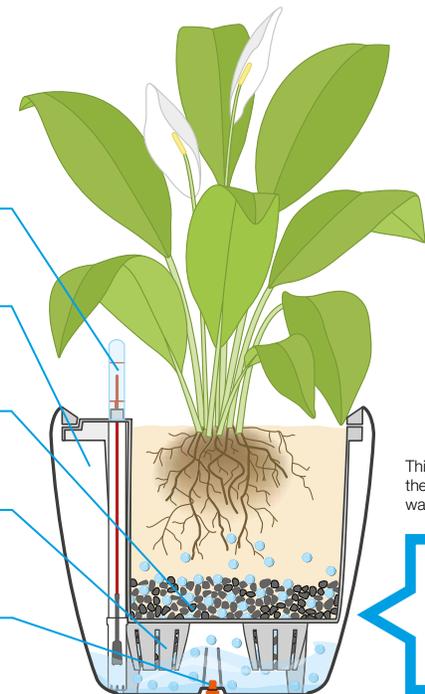

Perfectly controls the water supply to the plant

**SEPARATOR**

Forms the water reservoir in the bottom of the planter

**DRAIN PLUG**

Removed to allow rainwater to drain when used outdoors. Simply re-insert for use indoors.

This symbol indicates the original LECHUZA watering system.

**Easy to find**  
Use this symbol to determine the plant volume and the water reservoir size of the planters

Plant volume  
Water reservoir

IT ALL BEGAN WITH A VISION...

...just as  
nature intended

Plants have everything they need outdoors: Sunlight, water, and soil that is jam-packed with nutrients. Our intelligent watering system is inspired by nature, allowing LECHUZA to bring fresh green and magnificent blooms to any home!

H<sub>2</sub>O hooooooooo...

Our irrigation system follows the example set by nature: Simple, efficient, and one of a kind! As an innovative pioneer in plant care, we have developed an unbeatable method for creating the best possible conditions for optimal growth!

**Plants that take care of themselves naturally!**

Our intelligent system imitates a natural environment for plants. LECHUZA-PON plant substrate provides a firm underground for plants to grow while supplying all of the essential nutrients and just the right amount of water to the roots. Water is stored under the separator so that the plant can access it whenever needed.

✓ **UNIQUE SUB-IRRIGATION SYSTEM**  
Helps plants care for themselves

✓ **PERFECT CARE FOR PLANTS**  
Thanks to the water tank and LECHUZA-PON

✓ **WATER LEVEL INDICATOR**  
Reliably shows when it's time to water again

✓ **CHANGING THE PLANTING IS QUICK AND EASY**  
Thanks to the removable planter liner available in many models

## LECHUZA SUB-IRRIGATION

# Classic system

Simply place the plant with LECHUZA-PON in the planter liner or directly in the planter and water via the water reservoir.

### 1. Planting

Cover the separator with the supplied LECHUZA-PON substrate.

Set the plant and LECHUZA-PON in the planter and fill the planter with soil.

### 2. Growing-in phase

Over the next 12 weeks\* continue to water the plant as you normally would, pouring water "onto" it from above. For plants that develop roots quickly such as balcony plants, the watering phase is only approx. 3 weeks long.

### 3. Watering and dry phase

Following the growing-in phase, whenever watering the plant be sure to fill the water reservoir via the water supply shaft until the water level indicator reads "max." Now your plant will care for itself thanks to LECHUZA.

If the water level indicator reads "min." this indicates the start of the "dry phase" for the plant; this phase can last 2–10 days\*. After each dry phase refill the water reservoir to "max." via the water supply shaft.

\* depending on plant and location

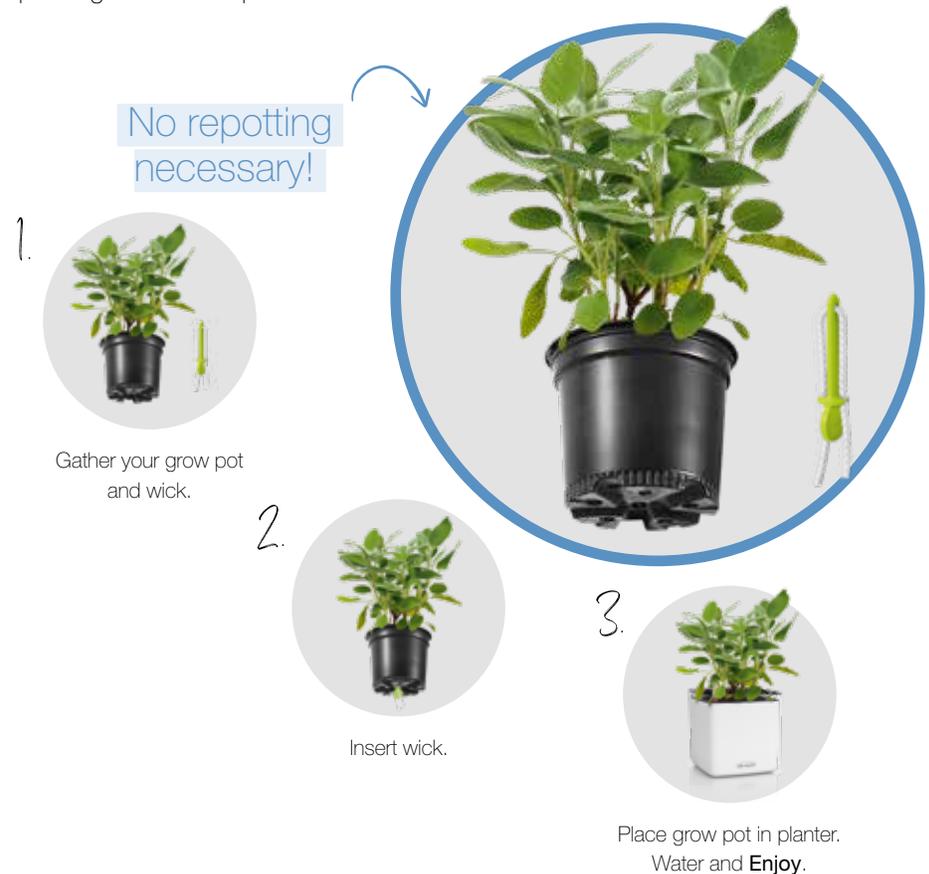

Easy to find:  
Planters featuring the stick system can be identified by this symbol

## LECHUZA SUB-IRRIGATION

# Wick system

Quick and simple! The wick allows you to keep small plants in their pots when planting them in the planter.

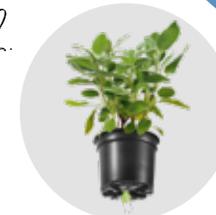

No repotting  
necessary!

1.

Gather your grow pot  
and wick.

2.

Insert wick.

3.

Place grow pot in planter.  
Water and Enjoy.

GREEN WALL

# Welcome to the jungle

What to do with boring, bare walls? Turn them into green walls!

LECHUZA THROUGHOUT THE YEAR

# Spring/Summer

When spring arrives, winter sweaters go back into the closet and flower pots go out onto the balcony or patio. With LECHUZA your plants will flourish and remain easy to care for even at high temperatures.

NIDO Cottage on p. 98

*Everything in its place!*

Shrubs and bushy plants belong on the floor or ground, while small flowers look great on tables. When you run out of room for your plants simply allow these lush green treasures to expand into the area above. Geraniums, petunias, and hanging begonias love freely hanging planters or planters attached to balcony railings, where they can grow undisturbed.

*Stylish accents...*

...are easily set with hortensia, fuchsia, and hibiscus. These attractive flowers in colors ranging from delicate to bold will thrive in large, elegant pots in black, gray, or white!

*Our tip!*

Let nature inspire you and bring variety to your balcony and patio! Large leafy plants next to small flowers, lush green beside bold, colorful blossoms in light and dark, large, and small planters. This summer's theme is contrast!

# Fall/Winter

It's time to dig out your winter sweater and make yourself nice and comfy indoors. Let LECHUZA inspire you!

## Colorful fall arrangements

Planters can retain their bold colors even in fall. Heather, coral bells, and fall pansies create a cheerful and bright blend and can stand up to the cooler temperatures outside.

## Delightful wintertime

An extraordinary highlight for the balcony or entrances: Christmas roses in exquisite, snow-white planters! And for the ultimate Yuletide mood, simply insert a few sprigs of fir between the roses and decorate with a string of lights! What could be more romantic?

## Living Christmas tree!

Today's Christmas trees are planted instead of being cut down! Even a mini fir with its root balls will have enough room to grow in our large planters. Long-lived, green, gorgeous!

# Table planters

Small planters that bring large enjoyment

STYLE YOUR HOME

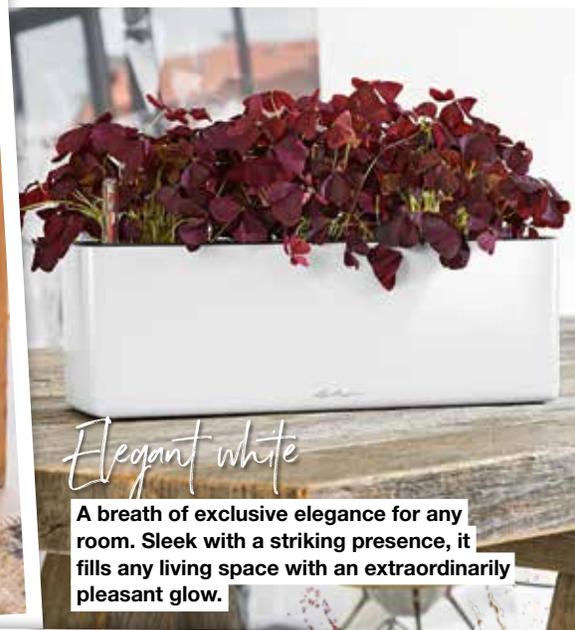

# Let's get glossy

Chic, trendy, and new from LECHUZA.  
Our Glossy COLLECTION makes a stylish splash  
and brings a modern touch to any living space!

## Sophisticated charcoal

Colors that blend in perfectly in the background have a mystic charm and a powerful impact. A true focal point, especially for spaces you want to showcase.

## Elegant white

A breath of exclusive elegance for any room. Sleek with a striking presence, it fills any living space with an extraordinarily pleasant glow.

## Bright red!

Dramatic, powerful, confident. If you have something you want to show off, then the color red is guaranteed to attract attention. Used in moderation it draw the eye wherever you want it to go.

# Focal points

## CUBE Glossy

Our handy, glossy cube miracle. There's no place that isn't perfect for a CUBE Glossy. Practical and stylish for the kitchen or elegant and modern for the living room, CUBE Glossy creates focal points guests are sure to remember.

# Homemade herb cream cheese

Since herbs and spices grow so well in LECHUZA planters,

I always have a great supply of fresh seasonings at home.

But what to do with them all? Here is a bit of inspiration for you.

This recipe is thanks to Janina and her blog,  
[kleineskularium.de](http://kleineskularium.de)

## You'll need:

- 1 kg (2.2 lbs) plain yogurt, 3.5% or 10% fat
- 1 1/2 teaspoons salt
- 1 garlic clove
- 1 bunch of your favorite herbs  
(I enjoy chives and parsley)
- Pepper
  
- Mortar or bowl
- Cheesecloth (or dish towel)
- Cutting board
- Knife

## Instructions

1. Work the salt and garlic into the mortar to form a paste. Alternatively, you can finely chop the garlic and grate it into a bowl with salt using the back of a spoon.
2. Now add the yogurt to the bowl and mix thoroughly with the garlic paste.
3. Put the yogurt in a clean cheesecloth (or dishtowel) and place in a strainer. Set this on top of a large bowl.
4. Store in refrigerator overnight or for around 24 hours to ensure enough liquid is strained. If it is still too soft, carefully press out more of the fluid.
5. Now wash the herbs, finely chop them and stir them into the prepared cream cheese.
6. Serve immediately or store in an airtight container. It will keep for several days in the refrigerator.

Bon appetit :-)

# Orchidea

by Lechuza

PERFECT MATCH

## Orchid set

They are magnificent, available in a range of colors, and the perfect way to decorate any windowsill. Let us show you how to properly care for your orchids!

» I DISCOVERED ORCHIDEA BY LECHUZA FOR CARING FOR MY ORCHIDS. IT MAKES EVERYTHING SO EASY BECAUSE THE SET INCLUDES A WATERING SYSTEM AND ORCHID SUBSTRATE – EVERYTHING NEEDED TO PROVIDE ORCHIDS WITH THE OPTIMUM SUPPLY OF WATER AND NUTRIENTS. «

These orchid tips are brought to you by Marie and her blog [sconesandberries.de](http://sconesandberries.de).

### 1. Correct potting

Your orchids will feel right at home in the **LECHUZA ORCHIDEA** planter featuring special substrate.

### 2. Correct watering

Orchids are very sensitive to waterlogging. Thanks to the **LECHUZA** watering system this demanding plant now has just the right amount of water for optimal growth. Orchids prefer lime-free water, e.g. rainwater. Feel free to spray the plant with the water once in awhile.

### 3. Correct location

Orchids need plenty of light, but should remain protected from very bright, direct sunlight. Otherwise, they could suffer from burns.

Perfect for your orchid? Of course!

The Original **LECHUZA** orchid substrate with coconut fibers and humin is precisely what orchids need for perfect growth. Best of all the **LECHUZA Orchid Set** already includes enough special substrate to plant your orchid!

Your orchids will love it

## ORCHIDEA

Having style also means being demanding and orchids are no exception. Our complete set featuring a beautiful planter, a transparent liner, and special orchid substrate makes taking care of these choosy beauties easier than ever!

**NEW**

incl. special substrate

ORCHIDEA white matte

## CUBE Color 14/16

No healthy cuisine would be complete without fresh herbs, but not all herbs in grow pots can be used right away. In the CUBE Color planters with surface structure, they receive just the right amount of water they need to stay fresher longer, all without repotting.

COOKING WITH LECHUZA

# Cook with fresh herbs

Fresh herbs are an absolute must for delicious dishes!

These little bursts of flavor thrive with LECHUZA and are always ready for fresh recipe ideas!

*Our tip!*

Even the smallest kitchens have room for this. Our practical metal strips let you grow your own little herb garden on the wall for big flavor in a small space (see accessories p. 126)

**NEW**

## Pesto alla do-it-yourself:

Ingredients

(for approx. 4 servings):

200g basil leaves

40g pine nuts

1–2 garlic cloves

100g Parmesan

120ml olive oil

salt to taste

Lightly roast the pine nuts in a pan without oil, then grind them together with the Parmesan in a mortar (or using a hand-held blender) and pour into a ceramic bowl. Chop basil as finely as possible, grind finely in a mortar and add to the bowl. Grate cheese and mix in with olive oil. Stir well until all of the ingredients form a creamy consistency – your fresh, homemade pesto is ready for adding to spaghetti, rigatoni, tagliatelle and more!

LIMITED EDITION

# Boho Style

Simply more joie de vivre! Boho style is hotter than ever! Alongside the fashion world, it is now naturally conquering apartments, cafés, and “in” locations.

“Boho”, short for “Bohème” symbolizes the rejection of rigid societal structures, more serenity and joy, and a more casual style in day-to-day life. Fresh, unconventional, free and easy, that’s the trendy “Boho style!”

*Decoration is everything*

Light and natural colors create an especially casual ambiance that can be jazzed up with cheerful color accents like blue. Fringed rugs and patterned pillows with an ethnic look are just as much a part of “Boho style” as wicker baskets and animal figurines. And of course plenty of bright and shiny plants, trees, and shrubs.

*Be creative!*

When it comes to the “Boho style” there are virtually no rules. That means you can just take what you like and put it wherever you want – perfect! And don’t be afraid of bold colors. After all “Boho” stands for joie de vivre and positive vibes.

LECHUZA FINISHES

Luxurious shine  
in the best quality

A stylish impression  
must be backed by the best possible quality.

Here at LECHUZA, we use only high-quality finishes that are on par with automotive finishes in terms of appearance and durability. To achieve our brilliant surfaces, our finishes have two separate layers: the base coat and a clear finish.

The base coat is water resistant, making it much more eco-friendly than finishes that contain solvents. We add an additional clear finish to this base coat. Then we harden both coats of paint under special UV lights in just 35 seconds to ensure our planters achieve the sunlight and weatherproof properties you've come to expect.

 Premium quality!

*Naturally we also use only the best of the best when it comes to the elegant matt finishes in our Premium Collection planters: The special UV coating guarantees colorfastness, durability and the high-quality appearance of our planters.*

ONLY FROM LECHUZA

# LECHUZA-PON

Tired of seeing mold grow on your potting soil? Not in the mood to get your fingers dirty every year when repotting your plants? Not interested in constantly refertilizing? Want to keep insects from invading your home? Then why not try out LECHUZA-PON, the original plant substrate from LECHUZA?

You won't be disappointed.

*Here are just a few of the advantages of PON*

- DOES NOT NEED REPLACING, EVEN AFTER YEARS OF USE
  - ENSURES OPTIMAL PH VALUES IN THE PLANTER
  - IDEALLY SUITED FOR PEOPLE WITH ALLERGIES
  - PROTECTS AGAINST FERTILIZING MISTAKES
- AND MUCH MORE

**WATER ONCE  
THEN SIT BACK AND RELAX**

**BECAUSE LECHUZA-PON RETAINS UP TO  
3 X MORE MOISTURE THAN SOIL**

*As much as you like*

**LECHUZA-PON is available in practical 6, 12, and 25 liter sacks – depending on how large the plant volume is for your latest project.**

Experience your own  
green miracle!

**LECHUZA once again  
recognized as  
"Superbrand Germany"**

LECHUZA was recognized again  
this year as one of the **TOP 100  
brands in Germany.**
